21 January 1943

SUBJECT: Commendation

TO : All Concerned

1. Eighteen aircraft were scheduled for a flight yesterday, 20 January 1943, and only thirteen of the eighteen arrived over the target. It was a particularly long, cold and trying trip; confusing and without fighter escort.

2. Despite the shorts notice for preparation, and even though the primary target was obscured, an important military objective was attacked and destroyed.

3. I want to commend the crews and pilots of aircraft listed below.
